

GTR ALUMINIUM PVT LTD.,

“ AN ISO 9001 : 2008 CERTIFIED COMPANY”

INTRODUCTION:

GTR ALUMINIUM PVT LTD., is an ISO 9001:2008 Certified Company, one of the leading manufacturer and supplier of Superior quality of Aluminum Extrusion Profiles since 2005. These products are manufactured as per the set industry standards and ensure for their dimensional accuracy and reliable performance. Further, the offered products are manufactured in compliance with the international quality standards and ensure for complete client satisfaction. We have established strong foothold in the industry by offering our clients top grade Aluminum Products.

Premium quality raw material with advanced machines and technology guarantee that each product strictly holds fast on set quality standards. These products are extensively reckoned in the industry due to their high durability, reliability and corrosion resistance finish. With the help of our capable and talented professionals, who put their terrific efforts and dedication to achieve our organizational goals by providing our clients absolute contentment. Moreover, our ethical business practices are client-centric.

LOCATION :

Our Company is located at No. 33 E,Veerasandra Industrial Area, Anekal Taluk, Bangalore – 560 100. Landmark is next to Electronic City IIInd Phase.

OUR COMMITMENT:

- Customer Satisfaction
- Reliability
- Excellence in Quality and Innovation
- Adoption of latest techniques

MISSION & VISION :

Mission :

To manufacture quality products at best prices to meet huge customer demands & to continuously improve productivity and efficiency to enhance stockholder's value.

Vision :

To be a market leader in aluminium extrusion industry through innovation, continuous improvement and total commitment to positive growth.

No.33 E,Veerasandra Industrial Area, Anekal Taluk, Bangalore – 560 100.

GTR ALUMINIUM PVT LTD.,

“AN ISO 9001 : 2008 CERTIFIED COMPANY”

MANUFACTURING FACILITY :

TOOL ROOM :

We have own in-built design and tool room department having capable of producing high quality dies with skilled Labours.

EXTRUSION PRESS :

We have CHINA MAKE AUTOMATIC PRESS SYSTEMS HAVING CAPACITY OF 2500 MT CONTAINS BILLET PRE-HEATER, PRESS, PULLER, STREATCHING MACHINE AND FINISH CUTTING.

AGEING :

Thermal treatment is carried out using a high velocity air oven with precisely controlled temperature that results in uniform mechanical properties in the extruded aluminum profiles.

PRODUCT:

We are manufacturing superior quality of Aluminium Profiles with the thickness from 0.7 mm to maximum of 20 mm and profile size having maximum Width upto 200 mm and height up to 100 mm. It may varies depends upon the profiles and other specifications.

We are producing different shapes and sizes of profiles for the various industries like **Architectural & Structural Glazing, Automobile, Transportation, Electrical & Electronics like Switch Gear item like Busbars , Control Panels & Heat Sink Industries , Home appliances, Solar, Textile , Miscellaneous** etc.,

We are manufacturing all types of grades with the respective hardness.

QUALITY CHECKING MACHINE :

- **SpectroMAX Machine, German Make** : To analyze the chemical composition of the profiles.
- **Brinell Hardness Checking Machine** : To analyze the Hardness of the Profiles.

No.33 E,Veerasandra Industrial Area, Anekal Taluk, Bangalore – 560 100.
